

TEMPORARY FENCING SOLUTION

ENSURE
MAXIMUM
SECURITY AND
CONTROL ON
YOUR SITE WITH
OUR FENCING
SYSTEMS

WE OFFER A COMPLETE SOLUTION, INCLUDING
RENTAL, DELIVERY, AND PROFESSIONAL
INSTALLATION, FOR A FAST, HASSLE-FREE, AND
EFFICIENT SETUP TAILORED TO YOUR NEEDS.

TEMPORARY FENCING SYSTEM

- ▲ Protects workers and the public from hazardous areas
- ▲ Prevents unauthorized access, theft, and vandalism
- ▲ Meets safety and zoning requirements for construction sites
- ▲ Quick to set up, adjust, and relocate as needed
- ▲ Strong welded wire fence

JERSEY FENCE

- ▲ Roadside Protection: shields pedestrians from vehicles and work zone areas
- ▲ Plywood mounted on top of jersey barriers to enhance safety and privacy
- ▲ Fence netting for wind and debris control
- ▲ Sidewalks

CROWD CONTROL SECURITY FENCE

- ▲ Enhances safety of pedestrians
- ▲ Manages traffic flow while efficiently guiding crowds
- ▲ Ideal for events, construction sites, and public spaces
- ▲ Built with durable materials to withstand heavy use
- ▲ Versatile and easily movable

SILT FENCE WITH WOODEN POST

- ▲ Size: 4 ft high with 1 foot return
- ▲ Effectively contains debris and sediment
- ▲ Temporary solution to prevent spreading to other properties
- ▲ Easy installation with integrated wooden sticks
- ▲ Allows water to stream through

Models:

- ▲ Heavy duty: 6 ft between the wooden posts
- ▲ Light duty: 8 ft between the wooden posts

GEOTEXTILE MEMBRANE MOUNTED ON FENCE

- ▲ 5 ft high membrane
- ▲ Effectively contains debris and sediment
- ▲ Allows water to stream through
- ▲ Attaches to fences with steel tie wire

SOLID WOOD PRIVACY FENCE

- ▲ Improved protection: Secures property & sidewalks
- ▲ Maximum privacy: Blocks visibility and reduces noise
- ▲ Allows customers to add logos and advertisement for increased visibility
- ▲ Versatile installation: Can be installed in-ground or mounted on concrete

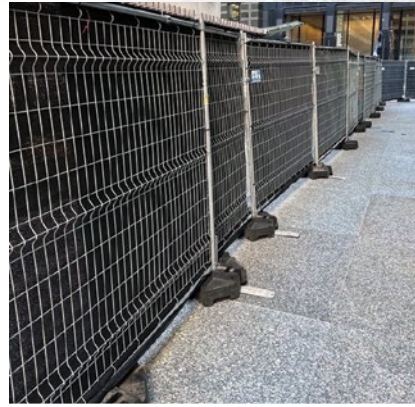

CONSTRUCTION AND TREE PROTECTION FENCE

- ▲ Preserves trees on construction sites
- ▲ Meets municipal requirements for tree preservation
- ▲ Used as a general safety for trees

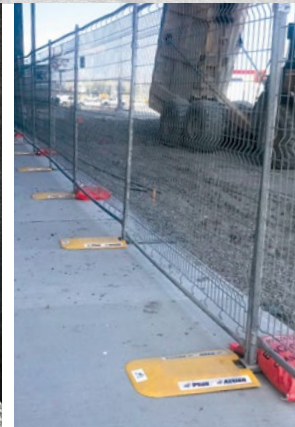

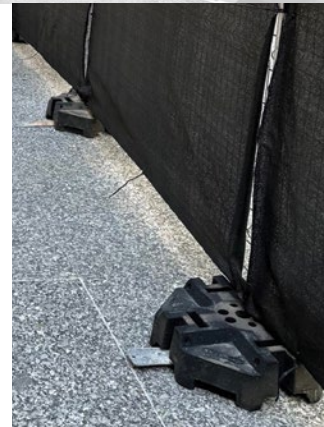

PRIVACY AND DEBRIS NETTING

- ▲ Dust & debris control: maintains a cleaner and tidy construction site
- ▲ Protects workers and pedestrians from dust and debris
- ▲ Privacy & security: Limits visibility of the site

FENCE COUNTERWEIGHT AND FOOT PROTECTOR

- ▲ Enhanced stability & safety: Prevents tipping from wind or impact
- ▲ Quick to install: No ground penetration needed
- ▲ Options available: Sandbag and recycled rubber feet
- ▲ Yellow foot protector covers eliminate tripping hazards

VEHICLE ACCESS GATE

- ▲ Defines entry and exit points
- ▲ Ideal to relocate the access gate on construction sites
- ▲ The weighted block secures the door without permanent installation
- ▲ Available gate sizes: 24 ft L x 6 ft H / 30 ft L x 6 ft H
